25X1X

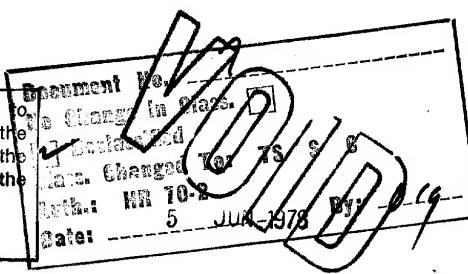

1. An officers' school for air force technicians was located in NOWY-DWOR (R 53/K 81), east of MODLIN (R 53/K 71). The participants had to sign up for six years and, after graduation, became air force engineers. The school was housed in the barracks building in the southwestern town section, where an electro-technical department had been stationed before the war. The trainees frequently went by car to the MODLIN airfield where concrete taxiways were available.

2. Twelve fighters were observed at the field.

25X1X [REDACTED] Comment:

As the information on the existence of the school for air force technicians is received for the first time, its accuracy cannot be rated. The present occupation of the MODLIN airfield is unknown.

This document is hereby regraded to
CONFIDENTIAL in accordance with the
letter of 16 October 1978 from the
Director of Central Intelligence to the
Archivist of the United States.
